APPLE Super Invasion is a unique real time game that utilizes the high resolution graphics capabilities of your APPLE. You control a laser turret at the bottom of the display with the game paddle. Move it right and left and behind obstacles to avoid the laser fire from attacking space creatures. The button on the game paddle is used to fire your laser. If you are lucky enough to destroy the first wave, a second wave attacks, and then a third and so on. The object is to get the highest number of points by destroying the space creatures.

### LOADING INSTRUCTIONS

APPLE Super Invasion is a machine language program that is loaded from the monitor. Turn on the APPLE and press RESET. Enter: "200.6000R". Remove the plug from the earphone jack on the tape recorder and press the PLAY button. When you hear the lead-in tone, put the plug back into jack and press the RETURN button on the computer. In a

few seconds the message Super Invader will appear on the screen. The program will continue to load and when finished the \* monitor prompt will appear. Type in "280G" and hit RETURN. Super invasion will then execute.

## **CREATIVE COMPUTING SOFTWARE**

Many other software cassettes and floppy disks are available from Creative Computing Software. If your dealer does not carry the full line, write to us and request the latest catalog.

## **CREATIVE COMPUTING MAGAZINE**
