PROGRAM REQUIREMENT: 24K memory
                    Integer BASIC

You are the pilot of a FIGHTER SPACESHIP and you
must seek out and destroy enemy ships. Excellent HIRES
graphics simulate star flying and space battle.

You select the number of enemy ships you wish to
encounter from 1 to 255. You also must state your rank
from 1 to 9. If you have never flown in outer space
before, you are Level 1. As you get better you may
increase your rank.   As you increase your rank, you
will battle against the best enemy gunners. When you
get hit, it's all over.

You control your ship with the Apple][joystick.
When you get the enemy in the center of your sight,
fire by pressing either button.
